

Bake Off

In preparation for our MacMillan coffee afternoon, across the school we decided to have a class bake off competition. All the children in each class worked together to come up with a flavour that they think our head teacher, Mr Toole, would like. Each class chose a different flavour and at different times in the day baked their batch of cupcakes.

This was a great opportunity for the children to work together in their classes for the competition. This has enabled the children to develop their communication skills as they discussed the different flavours they could put in their cakes and how they can decorate them to win the competition. The children thoroughly enjoyed the healthy competition around school we have noticed more friendships being formed within classes as a result of working together as a team.
