

## Maths Day 2021

This week at PACE we hosted a whole school Maths Day on Monday 24<sup>th</sup> May 2021. This was designed to allow the children to explore a variety of mathematical concepts across the day. The children were given the opportunity to do maths in their classrooms, in the hall and on the playground throughout the day.

All children completed activities relating to time and measurement, weight, fractions, shape and number.

On the playground the children took part in measuring the playground using trundle wheels in groups and comparing their answers.

In Rowan Class the children created art using tessellation of shapes.

The day was a complete success and enhanced the children's mathematical progress.

Here are some pictures of other fun activities going on around our school;

### Number and Times Tables Bingo

### Measurement PE!

*Children used meter sticks to measure our jumps.*

*Children used a stopwatch to time 1 minutes and counted how many jumps/hoops they scored.*

### Our Fractions and Weighing Tea Party!

*Children used scales to weigh their food.*

*They cut their party food into fractions.*
