Attendance

- The summer programme took place across 2 Alternative Education Providers over 16 days – Aspire Training and MPH Training
- 33 pupils were offered places and 23 pupils attended
- 120 pupil days were attended in total
- Attendance was maximised by contacts home (Letters, 'phone, emails) to discuss the programme content and benefits to the pupils. Tutors offered a variety of academic and engaging enrichment activities to encourage attendance, listening to pupil voice to provide the support the pupils felt they needed to help them with their next steps. Encouragement and positive feedback were used to support attendance, alongside the positive relationships already built over the preceding placement.
