

## Knowsley Safari Park

On Wednesday 21st June, Cherry class enjoyed a fantastic day out at Knowsley Safari Park!

We started the day on foot following the trail in search of the meerkats, giraffes and tigers. The children tested their agility and earned their stripes at the Safari Training Camp to see which animal they could jump as far as and were timed to see how fast they could run.

Cherry class continued the sunny, fun day watching the sea lion show where the children could learn some facts about sea lions and how they compare and differ to seals. We watched on as Roger performed tricks for the crowd and even jumped up out of the water to tap a ball which was elevated high up!

Next, we visited the aviary and watched a birds of prey show as several birds swooped over and above us with a fantastic flying display. We had to duck down at times as the birds flew right above our heads! Phew—that was close!

After that, the children enjoyed a few rides on the fair. From the dodgems and the mini roller-coaster to the spinning cups and the carousel. What a great time had by all!

To end our safari adventure, we took a ride in the minibus following the different zones where we saw lots of different animals—deer, rhinos, wolves, wildebeest, lions and even the monkeys! We didn't fancy having the wipers broken so we took the car-friendly route!

We had a ROARSOME time!
